Deduction Rate

The deduction rate will be decided based on the following table which describe the deduction % against the total numbers of errors.

Deduction Parameters (Consolidate)	Deduction Rate		
	BOCO	BM	CM
Up to 10 Errors	No deduction	No deduction	No deduction
11 to 20 errors	2%	2%	2%
More than 20 errors	5%	5%	5%

Process

- The branch accounts executive will verify the tasks as per the parameters mentioned and update the google sheet daily based on discrepancies finding.
- The Accounts Team Leader will ensure that the google sheet is updated, and that the data is shared with the appropriate BOCO/BM/CM on a weekly basis.
- At the month end the Branch accounts Team Leader will prepare the final deductions rate against each BOCO/BM/CM based on the google sheet.
- The branch accounts team leader will share monthly consolidate error report with final deductions before 3rd of next month with the reporting team.
- The reporting team will consolidate and share the data before 5th of the next month with the MIS Team for deduction and to HO Accounts teams for verification purpose.
